A Menu of Your Macros
WordPerfect Magazine
Tips

The included MACROS.WPM lists all of your macros, and invokes the macro that you select.

You will probably need to edit this file. To do so, press (Ctrl-F10), type "macros" and press 2. Replace c:\wp51\macros with the full path to your own macro directory. Press F7 to save the macro.

To use the macro, press (Alt-F10), type "macros" and press (Enter). From the macro list, highlight the macro you want to invoke and press Save (F10).
